

## Mirror headlight-seven-shaped hanging plate installation method

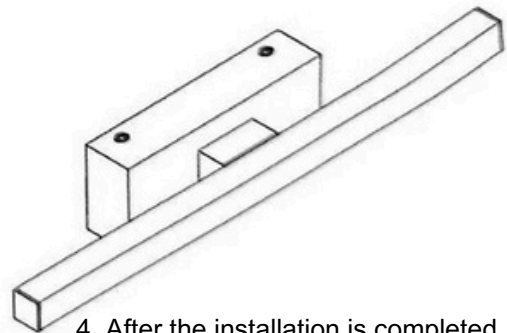

1. Fix the hanging board to the wall with self-tapping screw expansion caps

2. Connect the reserved wires to the lamp drive wires

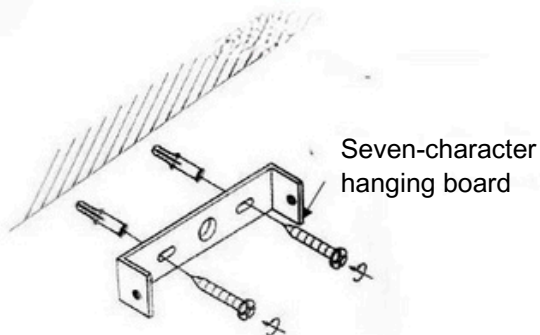

3. Use the hanging plate screws to tighten the lamp and the hanging plate from above.

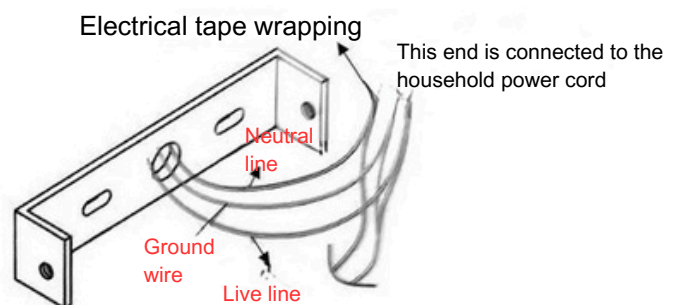

4. After the installation is completed, you can turn on the power and turn on the lights

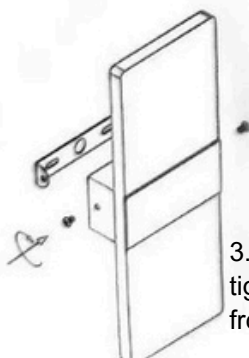

## Wall lamp-I-beam hanging board installation method

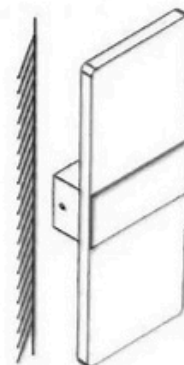

1. Fix the hanging board to the wall with self-tapping screw expansion caps

2. Connect the reserved wires to the lamp drive wires

3. Use the hanging plate screws to tighten the lamp and the hanging plate from above.

4. After the installation is completed, you can turn on the power and turn on the lights
