Step 3: Mounted with an E27 lamp head.

Step 4: Switch on the power

Care and note during maintenance

- 1 When servicing the luminaire, disconnect the power supply to avoid electric shock.
- 2: In order to use this product efficiently and safely, please check and clean the luminaire regularly.
- 3: When replacing the light source during the cleaning process, we recommend that you use high quality, durable branded products.
- 4. when cleaning lamps and crystal balls, do not rotate the lamp body to unsafe accidents caused by loosening the outer screw teeth of the lamp body.
- 4: When wiping the beads, it is recommended to use a soft cloth with water diluted with detergent wipe gently over the surface of the crystal beads. When wiping, do not pinch the beads and pull them downwards so that they do not break off. Otherwise, the lamp body will tilt, which can easily cause breakage.
- 5: Wipe the lamp body holder with a soft cloth, do not dip it in water and alcohol, petrol, etc. to wipe it off. (If you find that the beads are rusty or the crystal beads are missing, you should replace them in time).
