Image 1
1.Secure the bracket (3) tightly to the ceiling with self-tapping screws (4)
2.Please pay attention to the L and N wires during wiring, the connection should be very tight, and the plug should not fall off when pulled.
3.Insert two bracket screws (8) through the base (12) and secure them with two small decorative buttons.
Image 2
1.Attach the triangle (17) to the ceiling with screws (7), then attach the hanging loop (18).
2.Connect the hanging loop (16) and the chain (18) together.
3.Thread the power cable (2) and grounding cable (6) through the chain, the ring (18), upper cover (14), threaded tube, etc.
4.After connecting the power cable, slide the canopy towards the ceiling and tighten the safety screws.
