

Product Installation Steps

Attach the bulb to the lamp head, the lamp head wire runs through the upper part of the bracket, and lock the lamp head

The bracket is placed in the lampshade, the bottom of the bracket is against the iron ring under the lampshade, and the two ears at the top of the bracket are threaded into the two ears of the iron ring on the lampshade

The power cord passes through the ceiling plate and the hanging plate, connects the wire, then stops the hanging plate, and finally locks the ceiling panel

Warning: In order to prevent accidents that threaten personal safety such as lamp damage, falling, electric shock, and fire! This product must be installed by a professional electrician in strict accordance with the instructions! Make sure each connection is secure.
