

## Mirror headlight-seven-shaped hanging plate installation method

Seven-character hanging board

1. Fix the hanging board to the wall with self-tapping screw expansion caps

Electrical tape wrapping

This end is connected to the household power cord

2. Connect the reserved wires to the lamp drive wires

3. Use the hanging plate screws to tighten the lamp and the hanging plate from above.

4. After the installation is completed, you can turn on the power and turn on the lights.

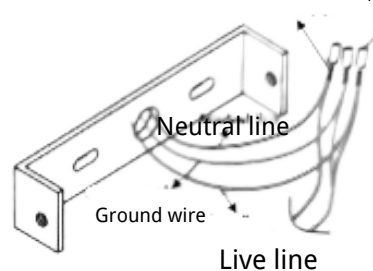

## Wall lamp-I-beam hanging board installation method

Seven-character hanging board

1. Fix the hanging board to the wall with self-tapping screw expansion caps

Electrical tape wrapping

This end is disconnected to the household power cord

2. Connect the reserved wires to the lamp drive wires

3. Use the hanging plate screws to tighten the lamp and the hanging plate from above.

4. After the installation is completed, you can turn on the power and turn on the lights.
